

Exploring Changping

The Future Science City

Changping, one of Beijing’s most dynamic districts, is a core engine of Beijing’s science and technology innovation, with three trillion-level industries – Pharmaceutical and Health, Advanced Energy, and Advanced Manufacturing – driving over 1000 billion in annual revenue.

41

Universities

66

National Key
Laboratories

58,000

R&D Professionals

Anchored by Future Science City's
Life Valley, Energy Valley,
and Shahe Higher Education Park.

Emerging fields like robotics, synthetic biology, and brain-computer interfaces are thriving here. With 70+ public service platforms, comprehensive talent policies (housing, education, career support), and a government-guided fund pool of RMB 59.8 billion, Changping makes doing business seamless.
